THE CULTURE OF SORGHUM AND IMPHEE — At the Illinois Convention of Sugar Growers, held in December, 1862, a Mr Pardee gave his views upon the prominent topic as follows:

Deep tillage is essential to a good crop—the deeper the better Does not like poor land—would let such alone Soil that will give thirty or forty bushels of corn per acre will do Cane cultivators have recommended lime and ashes for this crop Thinks burning over as he recommended before answers the same purpose Related an instance of two pieces, side by side, the one spread with straw (about five tons per acre) and burned over (This was for a crop of corn) The piece burned gave fifty bushels per acre, while the other gave but twenty one This suggested to him the process for the cane Thinks it better that year than the same amount of manure in any other form If burned over in the Fall and plowed deeply would plow shallow in Spring, and harrow thoroughly, and deeply in Spring if shallow in Fall Distance apart depends upon kind of cane. If small variety would plant three and a half feet by sixteen or eighteen inches, with from four to six seeds in hill, and would plant part early and part late to give a longer season for harvesting.—Thinks he will raise small sorghum for syrup and imphee for sugar Considers one hundred and fifty gallons an average crop. His cane that yielded three hundred gallons was planted in June

THE LATE SHERIDAN KNOWLES —A memorial is preparing in Glasgow, soliciting a pension of £100 a year for the widow of Sheridan Knowles A handsome monument is about to be erected to his memory in the Glasgow Necropolis; and two of his friends in London, one of whom went all the way to attend the funeral, have put down their names for $100 each.

OFFICIAL PAPER OF THE CITY

Nailing but the Old Flag—the Red White and Blue
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave
Whose blood bought the banner your valor must save

TUESDAY MORNING, FEB 10, 1863

When Thieves Fall Out &c.—A recent telegram to the *Oregonian* gave a short account of the attempt of Charles Watrous, U S Postal Agent for this Coast, to bribe Mr Smith of Butte county, California, to vote for Mr. Phelps as a candidate in caucus for U S Senator from California. In the Union caucus, on the night of the 27th of January, Mr. McCulloch, a member of the California Legislature, arose, and, after a solemn declaration of the honesty of his intentions, stated that, on the 16th of January, the Golden Eagle Hotel in Sacramento, he had overheard Charles Watrous offer certain inducements to Mr. Smith to vote for Phelps. Mr Gaskell, a State Senator, was concealed with him and overheard the same offers. Mr Smith testified that it was really Charles Watrous who was with him in the room, which completed the testimony against Watrous as the two witnesses were concealed in a wardrobe and did not see the agent of Mr Phelps. These things fell among the caucus like the explosion of a bomb-shell. Many gentlemen declared that they would vote no more for Phelps until the matter was cleared up—Phelps' friends very foolishly resisted an investigation, and attempted to turn the tide by showing that Trenor W. Park, another Senatorial aspirant, had attempted to buy up members of the caucus. Mr Park has withdrawn from the canvass, and the contest has narrowed down to Conness, Sargent and Phelps. It appears quite impossible that Phelps should be elected after the revelations of Messrs Smith, McCulloch and Gaskell. The whole affair shows that corruption is rife at the California capital, and that the Federal officials are interfering to elect a man not endorsed by the people. The man Watrous is in part one of our Federal officials, and his presence here would not be any loss to the public service if he would do his duty to his office! But if he does not intend to act any better as Postal Agent than he has done as Mr Phelps' private agent, he had better stay away altogether. When we first called attention to the negligence of this officer, we suspected that he was at Sacramento with no good intention, and now we have the proof of it!

Accidental Killing.—A party of young men, says the *Mountaineer*, have been wintering in a camp about four miles up Mill Creek from the Dalles. About their camp an Allen's "pepper box" revolver has lain for some weeks, which was unloaded. With this, the members of the party were in the habit of snapping at each other. One of the party, Henry Murphy, loaded the pistol, without giving information to his companions. One of them picked it up and presented it at his head, according to the practice of the party, and pulling trigger shot Murphy dead on the spot. Murphy was about nineteen years old, and came across the plains last season. This sad occurrence took place on the 4th instant.

Gas at the Dalles.—The *Mountaineer* says that the Board of Trustees, of the City of Dalles, have given to H. D. Green and his associates the privilege of laying gas pipes along the line of the various streets of that city, on condition that he shall light the city free of charge for two years. The franchise confers the right to erect gas works in the city limits. A few months will see the Dalles lighted with gas.

The Pirate.—The report that an attempt had been made to fit out a Confederate pirate at Victoria, to prey upon our Pacific commerce, is confirmed by the British *Colonist* of the 4th inst. It appears that a Captain in the Confederate navy has been in Victoria trying to purchase a steamer called the *Thames* but for lack of money did not consummate the purchase. His purpose evidently was to capture the San Francisco treasure ship on her way to Panama.

Circuit Court.—The Circuit Court for Multnomah County adjourned yesterday after the docket was called, motions heard and the Grand Jury empanneled. The session promises to be a long one with many cases of interest to be heard. The following are the names of the Grand Jurors: J. C. Franklin, foreman; A. J. Remington; J. M. Strowbridge, Pembroke Gantt, A. C. King, C. H. Hodgkins and Daniel Gradon.

Fatal Accident.—A fatal accident occured on the Coast Fork of the Willamette, in Lane county, on the 23d of January. A Mr. Keyes and two little sons were out in the timber chopping, when the smaller one about eight years old cut off a limb from a heavy trunk which suddenly turned over crushing him to death instantly. His neck was broken.

Didn't do it.—The *Republican* says that the people of Eugene City did not give $300 to the Sanitary Fund, as has been reported but to a Methodist clergyman. That paper doubts whether $100 could be collected for Sanitary purposes in Eugene.

Seymour's Inaugural Address

The following is a full report of Governor Seymour's Inaugural Address:

Governor Morgan: I thank you, sir, for your good wishes and your kind expression of a generous desire for my successful discharge of the duties upon which I am now to enter. I congratulate you that you are able to close your administration with a calm satisfaction in the contemplation of the condition of our State. It gives me great pleasure to testify to the cheerfulness and ability with which you have discharged the duties of Governor of New York during a time when the country has been involved in the embarrassments and calamities of war. Whatever position I shall occupy, you have my sincere wishes for your success and happiness. [Applause—cheers for Governor Morgan.]

Fellow Citizens: In your presence I have solemnly sworn to support the Constitution of the United States with all its grants, restrictions and guarantees; and I shall support it.

I have also sworn to support another Constitution—the Constitution of the State of New York—with all its powers and rights. I shall uphold it. [Great applause.] I have sworn faithfully to perform the duties of the office of Governor of this State; and with your aid they shall be faithfully performed. These Constitutions and laws are meant for the guidance of official conduct and for your protection and welfare.

The first law I find recorded for my observance is that which declares: "It shall be the duty of the Governor to maintain and defend the sovereignty and jurisdiction of this State." [Applause] and the most marked injunction of the Constitution to the Executive is that he "shall take care that the laws are faithfully executed." [Cheers.]

These Constitutions do not conflict; the line of separation between the responsibilities and obligations which each imposes is well defined. They do not embarrass us in the performance of our duties as citizens or officials.

I shall not on this occasion dwell upon the condition of our country. The power and the position of our own State have been happily alluded to by my predecessor.

My views upon this subject will be laid before you in a few days in my message to the Legislature.

This occasion, fellow citizens, when official power is so courteously transferred from the hands of one political organization to those of another holding opposite sentiments upon public affairs, is not only a striking exemplification of the spirit of our institutions, but highly honorable to the minority party. Had an misguided fellow citizens of the South acted as the minority of the citizens of our own State (a minority but little inferior in numbers to the majority) are now acting in this surrender of power, the nation would not now be involved in civil war. [Applause.]

While fully aware that I shall have but little control of public affairs in the position to which I have been called, and cannot do much to shape events, I yet venture to trust that before the end of my term of service, the country will again be great, glorious and united as it once was, and, in conclusion, I now offer to Almighty God my fervent prayer that the clouds which overhang us may be scattered, and that the close of my official term may find our people united in peace and fraternal affection, and the Union restored to what it was while we listened to the advice of our fathers. [Cheers.]

Fellow citizens, I thank you for this kind reception—I thank those who differ with me politically, for their presence here and participation in this scene—for it affords emphatic testimony to the constitutional obligations yet felt by the people of this great State. [Immense applause, amidst which the Governor withdrew.]

Summary Execution of Murderers by Piutes.—Correspondence in the *Territorial Enterprise*, Virginia City, Nevada Territory, of January 21st, says:

On the range of hills east of and adjacent to Steamboat Springs, two sudden deaths occurred among a tribe of Piutes under circumstances which led to the belief that they were poisoned. Suspicion at once fixed upon four of the same tribe, who had at that time left the locality. An eager pursuit was at once commenced, and two of the supposed murderers captured on their way to Virginia. They were taken back to where the deed was committed, tried, found guilty and sentenced to be shot. The writer of this, in company with another white man, was waited upon by the chief of the tribe and invited to witness the execution. Four of the tribe held a loaded rifle, two shots for each of the condemned, one aimed at the heart the other at the head, and fired simultaneously. The doomed wretches met their fate with cool indifference, standing up, untied and unsupported, before their executioners. After the execution the bodies were burned on the spot, a portion of one of which however, remains yet unconsumed. The other two murderers have not yet been caught but the chief says he is now going to Pyramid Lake and Walker's river in pursuit of them.

The Late Consul at Guaymas.—The *Cosmopolitan*, of Mazatlan under date of January 15th, says:

Stephens, who was with Col. Baker, late American Consul at Guaymas at the time he was killed, has given us a few particulars of the sad event. Stephens shows that we were not correct in our first account of the occurrence. Instead of the Consul two Americans and two servants having been killed, it appears that only the Consul and one servant were killed. S. Hutchings, one of those previously mentioned as among the killed was not in the party at all. The tragedy occurred on the 27th of December, at Punto de Agua, nine miles from San Marcos. Stephens who was ahead had a mule shot from under him at the first fire of the Apaches. At this time Col. Baker started in retreat but it was found that a number of the Indians were in ambush in his rear, who fired upon the unfortunate gentleman and killed him, as also the servant. The body of Colonel Baker was recovered and taken to San Marcos, where it was buried.

An Old String at Pike's Peak.—The Rocky Mountain News (Denver C. T.) of January 7th says:

Roup, Cassiday and Platt are pushing improvements upon their oil spring six miles northwest of Canyon City with every prospect of success. The spring discharges upon the surface, but to insure a larger supply they are boring with expectation of striking the main vein direct. The boring is four inches in diameter and at last accounts was down 2 feet. During the night the boring fills up with oil, and it runs out over the surface. The machinery for their refinery is on the ground and the boiler is set up ready for work. We may soon expect to see the market supplied with native oil for burning.

Two New Comets.—Dr. Bruhns, the Director of the Observatory of Leipsic, has discovered two new comets. The first appears as a very diffused nebulosity of about two minutes diameter. The second comet is described as brighter than the first and a better defined object. The maximum brilliancy of each will be attained nearly at the same period, January 1, 1864.

Later from the East.

News of January 30th.

Jefferson City, Mo., Jan. 29.—The Senate today passed the House resolution asking Congress to appropriate $25,000,000 for the emancipation purposes in this State—25 ayes and 2 noes.

Springfield, Mo., Jan. 29.—An expedition from Fayetteville, Arkansas, to Van Buren, Arkansas, succeeded in capturing the rebel steamer *Julia Ann* and taking 500 prisoners without loss on our part.

Nashville, Jan. 29.—Another fleet of 28 transports arrived to-day. They were fired on by guerrillas above the Shoals. The gunboats shelled them when the guerrillas retired.

New York, Jan. 30.—The New Orleans *Delta*, of the 17th represents the rebel steamer *Cotton* destroyed by the Federals, as being a very formidable vessel.

Information from the U. S. Consul at Matamoras says 1,500 Unionists have organized near Brownsville into two cavalry regiments. The Consul writes that about 1,500 are ready to join as soon as arms and ammunition are furnished. The announcement that the Banks expedition is designed for Texas produced this organization.

Mexican News.

New York, Jan. 30.—Advices from Mexico confirm the reported defeat of 4,000 French under Berthier by 800 (not 8,000 as heretofore reported) Mexicans. The affair occurred on the 28th of December. The French were completely routed.

The Mexican General Presida captured a convoy from Jalapa for Perote.

Negrete with 10,000 men made a sortie from Puebla and attacked a division 14,000 strong at Acogita, 8 leagues from Puebla, completely routing the latter. The French had to retreat to Orizaba. The French communications were cut off. Jalapa and Tampico were abandoned.

The small pox was raging at Vera Cruz.

European Intelligence.

Dates from Liverpool are to the 19th of January.

French official documents explaining the foreign policy of the Government had been distributed among the members of the Corps Legislatif. These documents show that mediation in American affairs was postponed in consequence of the refusal of England and Russia to join France, but the Emperor has not refrained from acquainting the Washington Government that he is still ready to mediate provided the American Government desire it.

The Emancipation Proclamation claimed serious attention, but was received too late for much newspaper comment. The *Morning Post* terms it the death warrant of the United States, and says it would be a terrible act if it could be enforced but regards it as wholly inoperative.

The *Star* thinks that whatever may be the immediate effect it rings the death knell of slavery.

The *Telegraph* says the rancor of the South must be increased, and if the measure is successful, never will military triumph have been purchased at so awful a price.

Sympathetic anti-slavery addresses continue to be adopted in various parts of England.

☞ **Coughs.**—The sudden changes of our climate are sources of pulmonary, bronchial and asthmatic affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of disease, no person should at once be without a box of Brown's Bronchial Troches, or Lozenges for the Cold, Cough or Irritation of the Throat, be ever so slight as by this precaution a more severe one may be effectually warded off. Public Speakers and Singers will find them effectual for clearing and strengthening the voice. See advertisement. dec16dawém

Storage.—The Fire Proof Stone Warehouse, opposite Umatilla House is the only building not made of wood at the Dalles. There goods are taken on STORAGE. All other houses that take goods on storage are wooden buildings and in exposed parts of the town liable to the risk of fire. The subscriber assures his patrons that his charges are but $1 50 per ton per month storage and although storage in wooden buildings is $1 00 per ton, yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place.

SUICIDE.—On Saturday last a man by the name of Michel Kaesbauer was locked up in the city jail at the instance of Mr. Geo. Bottler, of the City Brewery, as he had shown signs of insanity, superinduced by indulging in the free and protracted use of intoxicating drinks During Saturday night he was very restless, and also on Sunday night, showing evident signs that he was demented; but on yesterday morning he appeared rational. Not wishing to have the city jail used for the confinement of any person against whom there was no complaint, Marshal Grooms requested the parties who had caused him to be confined to take charge of him This Mr. Bottler did, and as he appeared to be much improved, took him down to the Shakespere Hotel, and engaged to have him boarded there until further orders Mr Bottler had known Kaesbauer in St. Louis, and at other places in the States, and was disposed to do him every kindness. About two o'clock yesterday afternoon, Kaesbauer went down to the City Brewery, and passed through the front rooms into the kitchen, where Louis Haehl was at work getting dinner Haehl invited him to remain to dinner with the laborers about the place, and Kaesbauer assented, and went into a central room, whence he passed down into the cellar, where he found Peter Doltzauer at work. He asked for Mr Bottler, and being told that he was not about, went up the stairs and through a side-door and passed into a building used for a horse to work in, to turn a horse-power. This place was quite dark, having no windows and the door was closed In a few minutes afterwards, Haehl went out into the horse power building to call Kaesbauer to dinner. He found him walking around in a stooping position Thinking that something was wrong, he did not inquire the real trouble but supposed that he had the "horrors." The man in the cellar, Doltzauer, came up to get his dinner and went out to call Kaesbauer again, when he found him mowing with his throat bleeding Haehl came in but the man would not give up a knife which he held in his hand, and Kohler, a man who was at work in the upper story, came down to assist in disarming him He found Kaesbauer standing with the knife thrust into his throat, and he had to pull him by the arm to get it out. Kaesbauer then gave up the knife and fell on the ground upon his face. He was turned over, and died in a minute, or less. It appears that the knife was a butcher's knife in use in the Brewery kitchen, and the suicide must have taken it, when he first went into the house, and gone into the cellar for the purpose of carrying out his aim; but finding Doltzauer there sought another place for that purpose. The man's throat was cut on the left side, severing the left jugular vein, and the windpipe was cut off. Upon the right side was a separate stab, which the knife was still in when Kohler caught hold of him. The ghastly wounds in the man's throat were horrible beyond description. The suicide was a native of Bavaria, and about forty years of age. A verdict was found by a coroner's jury in accordance with the above statement. The fate of this man is only another proof that intemperance brings its own punishment.

THE QUOTATIONS.—The advance in our Legal Tender note quotations, made in our yesterday morning's issue was in consequence of the printer's misunderstanding some directions in regard to it. The quotation at 65 is the price offered in San Francisco. New York news of the 30th ult., gives gold at 53 per cent. premium, or greenbacks at 65.55-153.

DRUNK.—Timothy Leary was found drunk in the street with one hundred and fifty dollars in his pocket. The Recorder took $5 and costs of this amount, and let him go. Shepard got drunk and laid down in the streets but he did not have even $5 in his pocket to pay his fine, so he was sent to jail for two days.

ARRIVED.—Below will be found the manifest of the *Jane A. Falkinburg*. She was towed up to Couch's Wharf night before last by the *Belle*:

White's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY

This medicine has been used in private practice for many years with great success Indeed, in no instance has it failed to effect a speedy cure, in Ague especially, one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the merits of the medicine alone A cure is guaranteed in nine cases out of ten

CONSULTING PHYSICIAN & SURGEON

Office, Corner of Washington and Sansome streets, San Francisco

The GREATEST SUCCESS of this CENTURY as an ADVANCE in PHYSICAL MEDICINE

Is Magnetism Positive of Material Nature, Recognized by the Government of the Celestial Nerves and Spinal Diseases

THAT THIS AGENT CAN BE SUCCESSFULLY APPLIED to the treatment of the various diseases to which the human system is subject, is now beyond the power of skepticism to gainsay. Its universality as a curative agent is the highest evidence of its truth. It is a part of that great principle of vitality known as Electricity, and therefore must necessarily supersede all other existing discordant action

Too Much Cannot be Said

in its praise for it is by its full use in health there is an exact equilibrium of the electric principle and should there occur any sudden equipoise of health he brings it to a level—and if the body is negatively electrified which is the case with disease—is not the current taken on to the point where forces going on in the system This needs no argument, and in order that the masses of the body shall fully appreciate its remedial agency we must first restore all

Awaken the Magnetic Life within us

The spinal and sympathetic nerve systems Believing as I do in that grand truth that the magnetic and electrical interests of the earth with its influences upon our bodies in health and disease, I shall not fail to take advantage of the Press through which to draw attention to the subject that good may come to all

No Compromise with Disease.

Give the body strength, and Nature will relieve herself Purify the blood, and the stomach liver heart kidneys and all the natural functions go actively by ELECTRICAL excitation and at once the agent the poisoned the nervous the Imported the unclean habit of the dyspeptic and the invalid receive under the magic influence

To the Ladies of California.

Dr Van Zandt's success with complaints of women, both in family and office practice in owing to his correct views of the origin fail their maladies Ladies can consult him with entire confidence as he is no speculator upon human life—but is proving himself the only member of the legitimate profession in California who is really successful in curing those illnesses which are the peculiar province of the sex His high appreciation of the delicately attuned nervous organism together with their great sympathetic influences him daily able to assuage those silent complainings which they keep patiently and so long No social disquietude need mar affliet our home circles for he can awaken the stricken energies restore the wonted tonicity of the body, awaken the inchoate and deepen dings, arrest those drains which cause so much anxiety, cure those protean maladies which have so long

Baffled the Skill of Physicians.

Develope appetite life and animation dispel nervous headache, sinking at the stomach wandering pains, wasting away of strength extreme debility and listlessness, hectic cough sleeplessness unpleasant dreams and that general depression of life's powers, which go to render her life a misery and death a boon Dr Van Zandt with his new method of exciting the Electro-Galvanic current together with his remedial measures which are adapted to the necessities of California will assure you of a complete and radical recovery of all bodily and mental infirmities and will restore you to usefulness, and spare you a blessing to your family and society

All the world over

wherever disease exists whether special to the soil and climate or common to all regions—epidemic or casual acute or chronic contagious or non-contagious—it is as necessary to restore the ELECTRO-GALVANIC equilibrium, especially in California as it is to give food to the starving This statement is based upon a series of facts extending through many years and verified by hundreds of patients, so that no principle of science no rule of experience no result of any well known cause, rests up on more sure and unassailable foundations than those which underlie the world wide reputation of Electricity for the cure of all nervous states of the body faulty digestion mental and physical debility or prostration caloric without wandering pains of a rheumatic, gouty or mercurial character and all forms of disease, the result of scrofula or cachectic habit of body

None Need Despair of Relief.

If you have ulcers which will not heal—pains that cannot be reasoned—melancholy which you cannot shake off—loss of power which you cannot regain—depression of spirits which weigh you down—wakefulness that knows no sleeping—weakness that languishes for want of energy—a cold which a society can fill—satisfaction which no assurance can allay—Go to Dr Van Zandt, for his great success and the safety with which he administers his new method of electrical excitation, together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities, within the scope of science and man to remove

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these affections an especial study, and that he is the only Surgeon in our State who has a diploma for that branch of practice Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery—as amaurosis, squinting cataract floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears giddiness, etc All operations successfully done on those delicate organs of sense

SEND FOR A CIRCULAR.

DR. BAKER'S PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oils and herbs It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least I will continue to send to the afflicted, who have not used it, to try it for the following diseases If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is for sale

If you have pain in the stomach or bowels, try a dose or Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day It will relieve the pain, and take out all the poison, and heal the wound in a short time

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning noon and night; it will not only cure the pain but will remove the cause of the disease

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day

If you have the Diarrhœa, or a relaxed state of the bowels take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time; it will stop the pain instantly

If you have a pain in the Breast, Side, Back or Kidneys, bathe the parts affected morning and night, at the same time take a dose of the Panacea internally

If a Mother has a caked breast, apply the Panacea hot as it can be borne

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time,

UNEMPLOYED WARRIORS —Mr Nesmith, of Oregon introduced a resolution in the U S Senate on the 10th of December, asking the President for information in relation to unemployed staff officers of the army Mr Nesmith's language explains itself, and we copy it from the *Globe*

From what indications I have been able to observe in traveling about the country I have made a rough estimate of the number of these gentlemen who are now unemployed, and who are drawing salaries from the public Treasury My estimate may be wrong I have based it upon such information as I could obtain, and I have offered this resolution for the purpose of obtaining accurate information I estimate that the number not now on duty approximates something near the following

Twenty colonels whose pay each is $211 a month, amounting in the aggregate to $4,220 per month five lieutenant colonels whose pay is $187 a month, amounting in the aggregate to $935, ten majors, whose pay is $163 a month, amounting to $1,630 fifty captains, at $120 each per month whose aggregate pay amounts to $6,450, making an aggregate, per month, paid to these officers not on duty, and who should, by the provisions of the act under which they were appointed, have been mustered out of service, of $17,230, or of $158,760 per annum As I apprehend, under the provisions of the act which I have read, that amount of money was drawn from the Treasury for the payment of these officers without any legal authority Of course, my estimates may be wrong

The basis upon which I make them may be wrong. I have no knowledge of the exact number of these officers who have been mustered out of service since the publication of the last Army Register, but I do know that the country is full of them I know of a colonel who is at the present time practicing law; he has not been on anybody's staff or done any service for six or eight months I know another who is running a saw mill, and another who is keeping a lager beer saloon [Laughter] Others of these men are not doing active duty, but are campaigning about the hotels here and making "charges" on the Treasury. Instead of disbursing this immense sum of $158,000 a year for the support of these gentlemen, I would suggest the propriety of diverting it to some more proper and beneficial use. We might perhaps establish some sort of a national pauper institution at which they could be boarded for less than the present salary they are drawing Some of them are not satisfied with their pay proper, which they are drawing contrary to law from the Government, but are complaining that they get no commutation for fuel and quarters. To relieve these gentlemen of the hardships which are imposed upon them, I would suggest the propriety of relieving them entirely from duty, and relieving the Treasury from the leeches that are preying upon it. I ask for the adoption of the resolution.

The resolution was agreed to

CULTIVATION OF THE GRAPE —The *Wine and Fruit Register* contains a hint in regard to the culture of grapes, which may be of use to farmers in this State It appears that it is not the cold of winter which prevents the California varieties of grapes from flourishing in our climate, but the lack of heat in summer. A species of grape spoken of below, the Black Hamburg, may be found the best variety for this climate. Possibly the Isabella grape could be introduced in this State also Upon this subject, the *Register* remarks

We wish our readers to carefully impress upon their memories, that of all the usual plants cultivated by man, there is perhaps scarcely one that can withstand, without injury, so great a degree of cold as the vine — The isothermal line of five degrees centigrade passes from near Sitka, on the Pacific coast, through Eastport in Maine, and thence it ascends northerly to above the Ferroe Isles, from which, after losing the influence of the Gulf stream, it rapidly descends to Moscow and Kasan, at which latter place the vine flourishes, though its winter temperature descends many degrees below that of Maine, but on the other hand, the summer temperature is much higher. No vines ever suffered in England from "winter's cold," but they fail in that country to ripen in the open air, owing to a deficiency of summer heat. The Black Hamburg is a variety that, perhaps beyond all others, will attain maturity at the lowest degree of summer temperature, yet in the vicinity of London this variety rarely ripens sufficiently in the open air to even form passable table-fruit, yet, that city's markets are supplied in profusion from the German coast with grapes of this variety, and of good quality, although grown beyond the parallel of London, from plants subjected to much more intense winter colds, but possessing the essential advantage of having for a month or six weeks the requisite higher degree of summer temperature required for their maturity.

NOTE.—The "degrees centigrade" mentioned in the copy, are measured by what is called a "Centigrade Thermometer," which divides the degrees of temperature from the freezing point to boiling, into 100 parts.

FIFTY YEARS AGO —On the 1st of November, 1814, the Richmond *Enquirer* published an article about the Hartford Convention, from which we make the following extract

No man, no association of men, no State, or set of States, has a right to withdraw itself from this Union of its own accord The same power which knit us together can only unknit, The same formality which forged the links of the Union is necessary to dissolve it The majority of States which form the Union must consent to the withdrawal of any one branch of it Until that consent has been obtained, any attempt to dissolve the Union or obstruct the efficiency of its constitutional laws is treason—treason to all intents and purposes Any other doctrine such as that which has been lately held forth by the Federal Republican, that any one State may withdraw itself from the Union, is an abominable heresy, which strips its author of every possible pretension to the name or character of a federalist

We call, therefore, upon the government of the Union to exert its energies when the season shall demand it, and seize the first traitor who shall spring out of the hot bed of the Convention of Hartford This illustrious Union, which has been cemented by the blood of our forefathers, the pride of America, and the wonder of the world, must not be tamely sacrificed to the heated brains or the aspiring hearts of a few malcontents The Union must be saved, when any one dares to assail it.

A SALT MOUNTAIN VIEW DISSOLVED —A story which was extensively circulated and believed in the south, a few weeks ago, to the effect that a huge deposit of rock salt had been discovered at Opelika Alabama, is summarily disposed of by a letter from a mail agent at Macon, named Simons, who writes to the Macon *Telegraph* that it is a delusion A specimen was imposed upon a venerable man, who swallowed the bait, as an indication of a large native supply, whereas, it was a sample of a lot just purchased

TURNED UP AGAIN —Dan Showalter once noted in the political annals of California appears on a new stage Correspondence of the San Diego correspondent in the *Alta* of the 24th, contains the following reminiscences of his movements

It is reported here that Dan Showalter has turned up again with a large party of armed men who have driven him from this State in Sonora At last accounts and which may be considered authentic he was at the city of Magdalena Sonora with from five to six hundred men Magdalena is situated on the road from Hermosillo to Guaymas and is about one hundred and twenty miles from the first named place It is known with certainty that Robertson who formerly represented this county in the Legislature of this State, has joined him with one hundred men which he raised in the Pi Pi mines during the past Summer Gorman is their captain and gets $100 per month for his services Showalter has command of the whole force, and is said to be very popular with them, as well as being well supplied with the needful sinews of war which is furnished him *ad libitum* by rebels from Sonora and English residents of Mazatlan who like to know to draw for funds A raid on Tucson or some other post on that line may be expected at any time, as that is the head of operations for the present

WHAT A FALL —In November 1860, Alexander H Stephens the present Vice President of the Confederate States, used the following language in speaking of the excellence of our Government

That this government of our fathers, with all its defects, comes nearer the object of all good government than any other on the face of the earth, is my settled conviction Where will you go, following the sun in its circuit round our globe, to find a government that better protects the liberties of its people, and secures to them the blessings we enjoy I think one of the evils that beset us is a surfeit of liberty, an exuberance of priceless blessings for which we are ungrateful

Proclamation by the Governor

EXECUTIVE OFFICE PORTLAND (OREGON) January 6, 1863

By the President of the United States, through Brigadier General George Wright commanding the Department of the Pacific and Brigadier General Benjamin Alvord commanding the District of Oregon I have been requested to raise six additional companies required to complete the last regiment of cavalry Oregon Volunteers This will be used the coming Spring, on the frontiers of this State and Washington Territory and for an expedition against the Snake Indians who have so long been mercilessly engaged in robbing emigrants and murdering our fellow citizens I cannot doubt that the citizens of Oregon who have always promptly responded to my demand for their military service will in like manner respond to this call, thereby showing their loyalty to the Government and aiding in chastising marauding bands of Indians which infest our frontiers

The enlisted men when mounted, will be supplied with horses by the United States it being understood that they will be mounted on such as shall be deemed advisable by the Government

Propositions to raise a whole company which will furnish their own horses and horse equipments may be entertained The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments

Each company will consist of one hundred enlisted men and when mustered into the service of the United States to serve for three years, unless sooner discharged

Recruiting offices will be immediately opened at Portland, Dalles City, and perhaps at other places By the Governor,

ADDISON C GIBBS

CYRUS A REED, Adjutant General

Divorce Notice.

In the Circuit Court of the State of Oregon for the County of Multnomah —In Chancery —Petition for divorce and vinculo matrimonii.—Lucy Crosby, Complt, vs Wm Edwin Crosby, Respdt.

TO WM EDWIN CROSBY, Respondent The complainant, Lucy Crosby, has this day filed her petition in the above entitled cause, in which she prays a decree of divorce from you, and also prays the custody and guardianship of her three minor children, the grounds of said complaint being that you have wilfully deserted and abandoned her for more than one year last past, and it also appearing from the affidavit of complainant on file herein, as well as from the return of the sheriff that you are a non-resident of this state, therefore, unless you appear in the Circuit Court of the State of Oregon, for the County of Multnomah, on the second (2d) Monday of February, A. D 1863, and answer the said complaint, the same will be taken for confessed, and the prayer thereof will be granted by the Court MITCHELL & DOLPH,

8:4t Solicitors for Complt.
